PROFESSIONAL SUMMARY

Motivated and detail-oriented aspiring Java Developer with hands-on experience in Java, MySQL, SQL, and backend development through internships and project-based learning. Strong understanding of Object-Oriented Programming (OOP), Collections Framework, Exception Handling, and database management. Passionate about problem-solving, software development, and continuous learning with the ability to quickly adapt to new technologies and development environments.

TECHNICAL SKILLS

Programming Languages: Java, SQL

Database Technologies: MySQL, CRUD Operations, Database Management

Core Java Concepts: OOP, Collections Framework, Exception Handling, Multithreading Basics

Tools & Platforms: Git, GitHub, Eclipse, VS Code

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability

EXPERIENCE

Java Full Stack Developer Intern — TAP Academy, Bangalore

Feb 2026 – Present

- Learning and implementing Java, MySQL, SQL, Collections Framework, and backend development concepts through practical training.
- Developed applications using Java and MySQL with CRUD operations and database connectivity.
- Applied Object-Oriented Programming concepts, exception handling, and modular coding practices.
- Improved debugging, problem-solving, and logical thinking skills through project-based development.
- Used Git and GitHub for source code management and version control workflows.

Java Programming Intern — Codtech IT Solutions Pvt. Ltd

Jun 2025 – Jul 2025

- Developed Java-based applications using clean coding standards and reusable logic.
- Strengthened understanding of Java fundamentals, OOP concepts, and debugging techniques.
- Worked on programming tasks involving logical problem-solving and modular application structure.

PROJECTS

Weather REST API Client

Java

- Built a Java application to fetch and display real-time weather information using REST API integration.
- Implemented HTTP requests, response handling, exception handling, and modular application architecture.
- Improved understanding of backend communication and external API integration.

Concrete Mix Design & Lab Simulator Web App

JavaScript, Node.js

- Developed a responsive web application for engineering calculations and virtual laboratory simulations.
- Implemented automated concrete mix design calculations and PDF report generation functionality.
- Enhanced user experience through interactive interfaces and optimized workflows.

EDUCATION

JNTUA College of Engineering, Kalikiri

2022 – 2026

Bachelor of Technology (B.Tech) in Civil Engineering

CGPA/Percentage: 70%

ACHIEVEMENTS

- Developed multiple Java-based applications focusing on OOP, REST APIs, and database integration.
- Built software projects involving backend development, API integration, and web technologies.
- Demonstrated successful transition from Civil Engineering to Software Development through internships and practical projects.
- Continuously improving coding and software development skills through hands-on project work.
